<https://github.com/Brun02K20> · <https://brun02k20portfolio.vercel.app/> · Address: Dr. Federico Padula 3446, Córdoba, Argentina

Software developer with over 4 years of experience in digital product development and management systems. Active involvement in software architecture, project planning, and technical estimation, focusing on scalability, high availability, and business-oriented solutions. Full-stack and mobile development experience working end-to-end. Driving product development using Artificial Intelligence, reducing lead times by +80%.

PROFESSIONAL EXPERIENCE

UAMI

Sr. FullStack Engineer

Córdoba, Argentina

April 2026 – Present

- Cost reduction of \$100 USD in AWS services.
- Implementation of silent captcha to prevent bot attacks.
- Implementation of multiple artificial intelligence-based applications, including a virtual try-on (TRY-ON), an AI HR recruitment application (ReclutIA), and an AI-First CRM.
- Implementation of CI/CD pipelines and practices for automated deployment.
- Automated security audits of production systems using ZAP.
- **Technologies and methodologies:** CI/CD, PostgreSQL, TypeScript, Express, React, PM2, AWS (S3, EC2, CloudFront, WAF, IAM), GitLab, ZAP, OWASP, Nginx, OpenAI API, Claude API

CodeandoWeb - Digital Solutions

Sr. FullStack Developer; Team Leader & Co-Founder

Córdoba, Argentina

August 2024 – Present

- Digital solutions for businesses: commercial websites, management systems, payment gateways, Artificial Intelligence automations.
- Requirements gathering, scope definition, and project estimation working directly with clients.
- **Technologies and methodologies:** SCRUM, JWT, Supabase, Firebase, Postman, React Native, Expo, Mercado Pago, OAuth 2.0, OpenAI API, Next.js, WebSockets, WhatsApp API (Brokers)

EngTrade - Consulting Services

Ssr. FullStack Developer & Team Leader

Córdoba, Argentina

Dec. 2021 – January 2026

- Active participation in software architecture and technical planning, considering scalability, availability, and long-term maintainability.
- Estimation and planning of software projects, aligning technical solutions with product and business requirements.
- Integration of external services and third-party APIs (payment gateways, messaging, etc.).
- Participation in multiple software projects with an end-to-end product vision, from analysis and design to development and deployment, including commercial platforms and ERP systems.
- Development of software products and microservices, optimization of SQL queries and stored procedures, and API documentation for cross-team integration.
- Development of cross-platform mobile applications integrated with backends and external services.
- **Technologies and methodologies:** Node.js, Express.js, React.js, Next.js, Python, FastAPI, Materialize.css, Sequelize, JWT, MySQL, GitHub, Git, VS Code, SCRUM, PuTTY, Vite, React Native, Expo, CI/CD

EDUCATION

NATIONAL TECHNOLOGICAL UNIVERSITY (UTN) Degree: Bachelor's Degree in Artificial Intelligence	Córdoba, Argentina <i>Sept. 2026 – Present</i>
NATIONAL TECHNOLOGICAL UNIVERSITY (UTN) Degree: Information Systems Engineering	Córdoba, Argentina <i>March 2021 – June 2026</i>
NATIONAL TECHNOLOGICAL UNIVERSITY (UTN) Degree: University Information Systems Analyst	Córdoba, Argentina <i>March 2021 – Dec. 2023</i>

ADDITIONAL SKILLS

- Private programming instructor / tutor.
- C1 English proficiency level.
- Team leadership profile.
- Soft skills workshop for engineering work environments.
